Hi Maureen – Versar has two small changes to the website. See attached. One change is adding the Eventbrite registration URL.

The listserv is currently under review with Kelly, but I think you can probably make these minor changes live whenever you have a second.

Ok got it! Can we reorder the staging site real quick? See layout below and one small tweak to the meeting objective.

There is only 1 version of a page in the database. So yes to your question. But I have “staged” the page, if you look at the link I provided

Hi Maureen – Just to clarify, are you just saying you can’t have a staging site here?

Hi Dahnish,

This isn't a Drupal page, it's a meeting page in the database. If I make these changes to the record that is live I will either have to unpublish it or write over it. We do have an option to duplicate the page so I did that. You can see these edits here: **Ex. 6 Personal Privacy (PP)**

But Versar might not be able to see them remotely, perhaps a PDF of the web page might work.

I have asked the contractors to make the list of peer reviewers 508, I added an entry to the list. Let me know if they want to keep the candidate list in addition to the new one.

Thanks! Maureen

Hi Maureen – We have some small updates to the Chloroprene meeting website I'm hoping you can put onto staging. Versar will then review the site (I'll PDF the pages for them). Also, attached to this email is a two page document that serves to finalize the list of peer reviewers.

We need to publish online no later than September 4. I think we are going to aim for September 1 or 2.
